DEDICATION

Believing that the four members of our faculty who have, for twenty-five years, served this institution with unfaltering enthusiasm and tireless efforts, in the many duties that have been theirs and knowing that through their intellectual, civic, moral, and religious influence, they have proved themselves to be

"Not like the men of the crowd
Who all around . . . today
Bluster or cringe, and make life
Hideous and arid and vile;
But souls tempered with fire,
Fervent, heroic, and good,
Helpers and friends of mankind."

We, the RADIONIAN Staff, dedicate

IN RETROSPECT

Time 1911-1919. On September 18, 1911, the Jones County Agricultural High School opened its first session with one brick building (now the old dormitory for girls), four teachers, and seventy-two students. During this period, a dormitory for boys, a home science cottage and the administration building were erected. Three Superintendents served: John R. Hutchinson, H. J. Hubbard, C. L. Neill. A strong literary course plus agricultural home science and music constituted the curriculum. Student activities grew with the school: Literary and Music clubs, sports, and Y. M. C. A., and Y. W. C. A., and the A. H. S. Riflemen. War clouds were heavy, and in the service flag of the school were placed sixty stars.

Time 1920-1929. This period began with C. L. Neill as Superintendent, and an enrollment of two hundred thirty. In the fall of 1923, M. P. Bush became Superintendent. During this period, annexes were added to the boys' dormitory and to the administration building, and the gymnasium was erected. — The Jones County Junior College was opened in the fall of 1927, with an enrollment of twenty-eight. In 1928-29, the enrollment was eighty-three, and the first graduating class numbered eleven; in the high school, the enrollment was four hundred seventy-five, and its eighth graduating class numbered seventy-two. — The faculty increased, and new student activities were organized: seventeen clubs, The Radionian, a Co-Ed. Interdenominational Christian Association.

Time 1930-39. M. P. Bush, president. A good building program in spite of "hard times": the Junior High building, infirmary, the Vocational factory, the N. Y. A. building, the band hall, Bush-Young Stadium, the President's home. Other things new: Bible courses offered, The Dream Girls Orchestra, Little Theater, the Point System for clubs, the B. S. U. and Wesley Foundation Secretaries, the Alma Mater, and the high enrollment of 1,686.

Time 1940-49. J. B. Young, president. This period proved to be a busy one for the young president. To gear the campus to help win the war, there were committees for the defense program; V-5 Naval Reserves; first aid, Nutrition and Physical Ed. classes; fire drills and air raid alarms, bond and stamp drives, pictures and speakers; the Jeep Queen! — Then came the Victory Queen, and the boys began to come home! The Honor Plaque, with 1,700 names and sixty-three gold stars was dedicated. In quick time a trailer camp, a housing unit, two brick dormitories, "the Barn," the Snack Shack, the cafeteria, and the entire Vocational-technical training program came into a reality.

Time 1950-52. Two years past the half-turn of the century! With the high mark of enrollment at 2,734; with Administrative officers, Staff members and Faculty of one hundred and three; with a school district of eight counties; and with state and national recognition, the school is well undergirded with a rich heritage marked by constructive policies. This period ends forty-one years for the High School and twenty-five years for the Junior College.

Administration

PRESIDENT'S MESSAGE

With the closing of this year, Jones County Agricultural High School and Junior College will have compieted forty-one years as an Agricultural High School and twenty-five years as a public Junior College. These have been great years. We take pride in the fact that year by year the institution has grown, and we are certain that it will continue to grow.

Some of these years have been years of uncertainty, turmoil, crises, and war, yet we are grateful that we can look back with pride upon the successes and achievements through the years.

We dedicate these years to the great host of students who have brought honor and who continue to bring honor to Jones County Junior College, and to the men and women who have served as members of the faculty and administration, and who, because of their interest in serving the young men and young women of this area and of the state of Mississippi, have been the molders of character, builders of spiritual strength and of intellectual power.

We remember, also, the great host of friends and alumni about us whose character, determination, and vision have laid the foundation and provided the leadership for building a great institution.

We do pay tribute to a high educational goal, to a great school spirit, and to a great heritage in all areas of our school activities, as we come to the close of the first twenty-five years of the Junior College. May we purpose together that during the next twenty-five years a great Junior College will become a greater Junior College, and a strong Junior College will become stronger.

These are they of our present faculty, who for twenty years, have served well and loyally the Jones County Junior College.

MR. M. P. BUSH, for seventeen years chief administrator of this institution, gave great devotion and loyal service to it. With his iron-like, but friendly rule, "Do Right", he maintained a high quality of co-operation and discipline; with his interest in students' achievements, he encouraged a high standard of scholarship; with a deep appreciation of the moral and spiritual values of life, he contributed his influence to building on the campus high religious influences

M. P. Bush

MISS VALERA JONES from Quitman, Mississippi, began her work here the session of 1926-1927 in the high school commercial department. In this capacity, she served for twenty three years.

Miss Jones gave inspiration to many students, encouraged and assisted numbers of young men and women to stay in school. Her philosophy in this respect was "Let not the right hand know what the left hand doeth."

Another outstanding trait of Miss Jones was her sense of humor and clever repartee. In truth, there were no dull moments in class room — or elsewhere — if Miss Jones were present.

She resigned at the close of the session of 1949-1950, because of ill health. She now resides in her home near the campus.

MRS. LELA M. BUCKLEY came into the Music Department of this school in 1918, and with a passion for music she did much to set deep "the grass roots" upon which the department thrives so beautifully today.

Through her twenty seven years of service, on a high and admirable level, she influenced many lives as they passed her way. And today her influence still breathes its inspiration into the hearts of this institution for it was she who set to music the lovely lyric that makes our Alma Mater.

Formerly Mrs. Buckley lived in Laurel, but now she resides in Nashville, Tennessee.

AMONG the many other good things that have come to Jones County Junior College during this twenty-fifth year, sports holds recognition worthy of summarizing.

The Bobcats became State Junior College champions and Lions Bowl champions. This is the best record in the history of the Junior College football. The team went through the season with no defeats and one tie.

The high school football team won six games, tied one, and lost one. In high school basketball the boys won second place in the Laurel Merchants Christmas Tournament and second place in the District Five High School Tournament.

In the spring of '51 the college baseball team, which is pictured in this scholastic year of sports, was the runner-up of the State champions.
